Only valid together with approved Order Confirmation (OC).

Once approved, we take no responsibility for artwork or production errors.

In order to avoid a production delay, please confirm within 24 hrs.

! By approving this visual, you accept the following deviations:

1. When printing on coloured bottles, it is necessary to print a white underlay first. In some cases an outline is visible.

2. Dark bottles are more sensitive to scratches and scuff marks.

3. When printing a multiple colour design, where the colours meet a 0,5 mm tolerance in closure must be accepted.

4. When printing full colour process CMYK, the end result is mat, pixelated and can deviate from the visual proof. Our raster size is 34 dpi.

Bottles are dishwasher safe up to 40° C !

! To print a PMS colour onto a black or coloured bottle you need to print a white underlay. Without the white underlay a printed pms colour will become darker. The underlay is slightly smaller than the printed design. Where the underlay is smaller, the printed colour will be darker and it seems like a line of a different colour is printed around the logo. This is the reaction of the ink without the white underlay. Unfortunately, the dark outline cannot be avoided. **Therefore, please inform your customer about this deviation!**
